GEXCON

Gexcon

Your partner in process safety and risk management

Safety through engineering for people, property, and the environment

About Us

Gexcon is a world-leading company in the field of safety and risk management and advanced dispersion, explosion and fire modelling. Our experience arises from detailed knowledge of explosion phenomena built up through more than 40 years of conducting extensive research projects, carrying out safety assessments, performing accident investigations and conducting physical testing. We also have been involved in the investigation of many high-profile accidents such as Buncefield, Piper Alpha, TWA 800, and the P-36 platform (Brazil). Through our experience and expertise, we can provide you with realiable solutions to your process safety needs.

Our Values

Trustworthy

We build trust between employees, partners, customers, and authorities

Sharing

We share our knowledge and expertise

Agile

We are attentive to support our customers and able to act quickly

Why Choose Us?

Experienced

We have over 40 years of experience in process safety, including our involvement in the investigation of many high-profile accidents, such as Buncefield, Piper Alpha, TWA 800, and the P-36 platform (Brazil).

Knowledge

Our in-depth knowledge in process safety has been built up through years of experience. This is the foundation of our quality products and services.

Experts

Our team consists of highly qualified and experienced professionals who are very passionate about safety and ready to providing you with the most effective and relevant solution.

Advanced Tools

We develop comprehensive 3D consequence modeling tool based on our knowledge and through continuous validations to ensure it will give you the most reliable solutions in performing safety studies.

GEXCON

Our Products and Services

Software | **Consulting** | **Fire & Explosion Testing** | **Courses**

Industries We Serve

- Oil and Gas Upstream
- Oil and Gas Midstream
- Oil and Gas Downstream
- Power Generation
- Renewable Energy
- Mining
- Nuclear
- Engineering, Procurement, Construction
- Engineering Consultancy
- Automotive Manufacture
- Aerospace Manufacture
- Pharmaceutical
- Food and Beverage Manufacture
- and many more!
